BERLIN PROJECT REQUIRING GREEN STREET (NH 110) CLOSURE
CONSTRUCTING RAILROAD OVERPASS STRUCTURE

The New Hampshire Department of Transportation announces the planned closure of a section of Green Street (NH Route 110) in Berlin to allow for the replacement of the St. Lawrence and Atlantic Railroad overpass.

Beginning on Monday, April 17, Green Street will be closed to through traffic from Pleasant Street to First Avenue for three to four months. A second phase will limit the Green Street closure to from Cole Street to First Avenue for the duration of the project, which is scheduled to be completed in August 2007. A signed detour during the road closure will essentially follow the existing truck route via Mt. Forist Street and First Avenue.

R.M. Piper Inc. of Plymouth, New Hampshire is the contractor for the \$4.39 million project, which also includes the reconstruction of Green Street from Pleasant Street to Second Avenue, along with drainage and water main work.
